

Version 2.16.0 Changes

▼ [Content](#)

DATE

2021.03.25 - PCS EC version 2.16 was deployed on production, test1, and test4.

CHANGE/BUGFIX:

- [RNE014-3489] Creation of dossiers with PaPs between x-8 - x-7.5.
- [RNE014-4052] Re-fetch all calendars when they are changed on the back-end: make sure that we always have the latest state of the calendars.
- [RNE014-4053] Fix bulk sub-path deletion: keep the selected territory after removing sub-paths using the bulk sub-path deletion option.
- [RNE014-4055] Make sure that entered dossier level parameters are not removed
- [RNE014-4062] Do not show remove PaP and PaP capacity actions in Alternative Preview: user should not be able to remove pap or remove pap capacity when is in a mode of alternative reservation.
- [RNE014-4066] Fix the skipping of calendar step in the pap selection wizard: Creating a dossier with PaP's with capacity that they don't have should not be possible.
- [RNE014-4068] It is not possible to withdraw dossier with PaP from Pre-booking: Error: You are not using any of the capacity of the these RFCs.
- [RNE014-4069] Error when loading train parameters from archived version: an error occurs when opening RU timetable for IM user in Harmonization Conference.

(There are no PCS EC Sprint release notes created.)
