

2016 Deadlines, milestones and related automatic actions

▼ [Content](#)

There are set up some automatic promotions and operations in PCS too. There are set up in order to help users with treatment of big amounts of dossiers on certain dates.

12/01/2015 Finalization/publication of Pre-arranged Paths (PaPs) and Catalogue Paths

19/01/2015 at 23:59 (limit for placing feasibility study requests for timetable 2016): Automatically switching all dossiers which are in Path Consulting Conference to Feasibility Study Elaboration Conference – applicants lights must be green or at least yellow.

20/01/2015 at 23:59: Automatically switching all dossiers in Path Consulting Conference to Harmonization if at least one applicant's light is red or blue.

If IMs/ABs intend to examine some possible path solutions without involving the applicants too early, the leading IM/AB might switch off the conference mode at any time.

Note: The rules of 15/8 days of no activity which causing an automatic transfer from Path Consulting Conference to Harmonization are switched off for timetable year 2016 until 20/01/2015.

16/03/2015 at 23:59 (limit for answering path study requests): Automatically switching all dossiers which are in Feasibility Study Elaboration Conference to Harmonization regardless IMs/ABs lights. **Note:** the Feasibility Study Result will be treated in the system as 'acknowledged'.

In case a feasibility study cannot be completed by the IM/AB in due time, and the dossier should not yet automatically be switched to Harmonization on **16/03/2015 at 23:59**, the IM/AB has to switch this dossier manually from conference to Feasibility Study Elaboration **before 16/03/2015 at 23:59**. Afterwards, the switching from Feasibility Study Elaboration to Feasibility Study Result has to be done manually by the leading IM/AB.

Between 17/03/2015 and 21/03/2015, every night at 23:59 Automatically switching all dossiers which are in Feasibility Study Result to Harmonization

Note: the Feasibility Study Result will be treated in the system as 'acknowledged'.

13/04/2015, at 03:00 and again at 23:00: All dossiers in the Harmonization phase with all applicants (path related) lights on green will be switched automatically to the Path Request phase.

If there are any remaining dossiers in the Path Consulting Conference, they will be transferred to Harmonization **at 04:00 on 13/04/2015**.

14/04/2015, at 00:01: All dossiers submitted after this deadline will be treated by the IMs/ABs as late path requests. The system checks regularly (every night) the status of the acceptance indicators of the dossiers and automatically transfers those dossiers where all applicants' lights are on green at 23:00 h to late path request until 12/10/2015.

Between **14/04/2015** and **28/04/2015**, Corridor OSSs of the Rail Freight Corridors will reserve Pre-arranged paths (PaPs) and will reserve accepted alternative PaPs.

By 17/06/2015: In order to fulfil the harmonization process during the RNE Technical Meeting, all IMs/ABs have to guarantee the availability of the constructed/designed train

path.

06/07/2015, at 02:00 and again at 23:00:All dossiers of new path request process with all IMs/ABs green lights will be switched automatically from Path Elaboration via Draft Timetable to Observations. After this deadline, the leading IM/AB may to switch dossiers with all green lights manually. All lights of the applicants will be changed to blue in Observations.

From **07/07/2015 to 07/08/2015:** the system will check every night at 23:00 if there are any dossiers with all IMs/ABs lights on green and will switch them directly from Path Elaboration to Observations.

From **07/07/2015 to 07/08/2015:** applicants may make observations in the available field.

07/08/2015, at 23:00: At the end of this phase, all dossiers will be switched automatically from Observations to Post-Processing mode on the deadline, regardless of the applicants' lights.

Note: This rule is valid for only those dossiers which have been switched to Observations until **06/07/2015**. The IM/AB lights will change to blue in Post-Processing.

Between **08/08/2015 and 24/08/2015**, IMs/ABs prepares the final answers to the customers.

From **25/08/2015** system allows IMs to give a Late Request Offer.

From **11/08/2015 till 06/09/2015 at 23:00**, the system checks the status of the lights of the dossiers and transfers those dossiers that have all IMs/ABs light on green automatically to Final Offer.

Between **25/08/2015 and 07/09/2015**, all involved applicants accept the Final offer by setting all lights on green.

From **26/08/2015 to 13/09/2015 at 02:00:** all dossiers with all applicants' lights on green will be switched automatically in the next phase Active Timetable.

12/10/2015 at 23:59: Latest time to place late path requests for the annual timetable 2016.

13/10/2015 at 00:01: First moment for placing ad hoc path requests for the running timetable 2016. The system regularly checks (every night) the status of the acceptance indicators of the dossiers and automatically transfers those dossiers where all applicants' lights are on green at 23:00 to ad hoc path request.

13/12/2015: Start of timetable 2016

Further notes and automatic promotions to Late path & Ad hoc path request process:

Path elaboration phase

Late path requests process: the leading IM/AB has to switch manually dossiers with all green lights from IMs/ABs from Path Elaboration to Late Request Offer. The system prevents IMs to give a Late Request Offer until the deadline for Final Offers for regular Path Requests is passed.

Ad hoc path requests: dossiers with all IM/AB lights on green will be switched automatically (every night at 23:00 h) to Ad hoc Request Offer.

Acceptance phase

Late & ad-hoc path requests: If the applicants do not have any remarks regarding the path offer – all lights are on green - the leading applicant may switch the dossier directly to Active Timetable. By doing so, two phases – Post-processing and Final offer – will be skipped. It is important that the system does not take any automatic actions in this phase. The manual promotion to Post-processing

will be possible only if applicants' lights are at least green, yellow or red.

Post-processing phase

Late & ad hoc path requests: the system checks regularly at 23:00 if there are any dossiers with all IMs/ABs lights on green and will switch them directly to Final Offer.

Final offer phase

Late & ad hoc path requests: if a dossier is moved from Acceptance phase directly to Active Timetable, the Final offer is just a milestone. If the dossier has been moved from Post-Processing to this phase, the system regularly checks (every night at 23:00) the status of the applicants' lights. Dossiers with all applicants' lights on green will be switched automatically in the next phase Active Timetable.

Partial harmonization

Path elaboration phase

If the deadline for draft offers is reached and not all IMs have set their acceptance indicators to green, an IM being forced by national legislation to send the offer may start the partial offer process.

By doing so, dossier is split in that way that each RU/IM pair could be in different phase of process (valid for all path request processes).

Observations phase

Dossiers received in partial offer mode have to be switched manually by RUs to post-processing independently for each RU/IM pair.

Post-processing phase

Dossiers already received in partial offer mode have to be switched manually by IMs to Final offer independently for each RU/IM pair.

If the deadline for final offers is reached and not all IMs have set their acceptance indicators to green, an IM being forced by national legislation to send the offer may start the partial offer process.

By doing so, dossier is split in that way that each RU/IM pair could be in different phase of process (valid for all path request processes).

Final offer phase

Dossiers in Partial offer may only be switched harmonized to Active timetable (except ad hoc partially harmonized process).

Dossier with all green lights could be switched manually to the Active timetable or automatically too (there are valid the same conditions like in the harmonized processes for automatic promotion).

Active timetable phase

Dossiers switched harmonized to Active timetable will follow the normal PCS processes.
