

## Phases of Pre-arranged path (PaP)

### ▼ Content

### Introduction:

Following phases are parts of the Pre-arranged path process. Pre-arranged paths are corridor OSS (C-OSS) offer provided for applicants on Rail Freight Corridors. For this reason, there are no access rights for any applicants during the whole process. Applicants can only select pre-arranged path and insert it into his dossier for placing path request. Pre-arranged paths are created via import or via wizard in C-OSS interface.
