

Phase Path Elaboration (CT)

Content

This is the second phase for catalogue path process. IMs prepare catalogue path for publishing.

Rights: IMs have read and write access in their assigned sections of dossier.

Object: Each involved IM should prepare corresponding section of catalogue path.

Necessity: There must be filled in all common mandatory fields.

Control: When IM finishes his work on dossier, his path-related acceptance indicator (light) should be set up on green. When all path-related lights are on green, leading IM could release catalogue path.
